PROFESSIONAL SUMMARY

I am an Undergrad B.Tech in Computer Science Major with a specialization in Artificial Intelligence. My enduring passion for physics, particularly in cosmology, quantum mechanics and atomic physics has been a driving force in my academic journey. While I am beginning to learn C and C++, my aim is to apply these skills to advance my understanding of physics.

Outside of academics, I enjoy exploring audio mixing and editing as a creative outlet.

With a lifelong interest in physics fueling my curiosity and determination, I am eager to integrate my computer science studies with my passion for physics in future research endeavors.

EDUCATION

Intermediate (Class XII)   2021 - 2023
City Montessori School   Grade: 70.25%

Matriculation (Class X)   2019 - 2020
City Montessori School   Grade: 80.0%

CERTIFICATIONS

An Intro To Logic For Computer Science, University Of Leeds ([Link](#))   May 2024
Introduction to logic for computer science

SKILLS

Soft Skills: Critical Thinking, Teamwork, Creativity, Research, Decision-making

EXTRA-CURRICULAR ACTIVITIES

Attained 2nd rank in group based astronomy olympiad conducted by IIT Mandi

Attained AIR 76 in Technothlon conducted by IIT Ghuwati
